AREA COMPLETION PROJECTS

Dear Mr. Hennessey:

The U.S. Environmental Protection Agency (EPA) has reviewed the Department of Energy, Savannah River Site (DOE-SRS) Responses to EPA Comments on the Calendar Year 2020 Groundwater Mixing Zone Letter Report for the D-Area Oil Seepage Basin (631-G), SEMS Number 27, dated July 19, 2021.

EPA approves the above mentioned report with the understanding that EPA will continue to monitor the cleanup timeframes and may request an update to the model to determine a revised cleanup timeline. EPA requests that calculated groundwater flow rates and directions are included in the letter reports to accompany the potentiometric surfaces. If you have any concerns or questions, please contact me at (404) 229 -9500.

Sincerely,

A handwritten signature in cursive script that reads "Diedre Lloyd".

Diedre Lloyd
