AREA COMPLETION PROJECTS

RE: Decommissioning Project Final Report (DPFR): D-Area Coal Handling Houses and Associated Facilities (V-PCOR-D-00068, Revision 0, November 30, 2022); Cover letter dated December 14, 2022

Dear Mr. Hennessey:

The South Carolina Department of Health and Environmental Control (SCDHEC) has reviewed the referenced document with respect to the Memorandum of Agreement for Achieving an Accelerated Cleanup Vision for the Savannah River Site (SRS) and has generated the following comment.

According to the Facility Decommissioning Evaluation for the D-Area Coal Handling Houses and Associated Facilities, Bldgs. 484-21D, -22D, -23D and Conveyors 1, 2 & 4 contained non-friable Asbestos Containing Material requiring removal. For clarity and programmatic consistency, Section 2.01, Facility Description, of the DPFR should confirm that asbestos abatements were performed at these buildings and conveyors.

If you have any questions, please contact Leigh Beatty at 803-642-1637 or via e-mail at beattykl@dhec.sc.gov.

Sincerely,

A handwritten signature in black ink that reads 'Gregory N. O'Quinn'.
