To all,

I am resending due to the total file sizes exceeding the limit for SCDES and to include the Excel file for Tables 3 to 5. The attachments will be sent in two emails. The first email will contain the Data Summary Report and the Excel file. The second email will contain the Scoping Summary.

SRNS-J2000-2024-00855

Jon and Susan,

In accordance with the discussion and agreements reached by the Core Team (U.S. Department of Energy, U.S. Environmental Protection Agency [EPA], and South Carolina Department of Environmental Services [SCDES] personnel) at the November 30, 2023, D-Area Groundwater Operable Unit Post-Characterization Scoping Meeting, Savannah River Site is submitting the *D-Area Groundwater Operable Unit (OU) Annual Data Summary Report – 2023 Data (U)* for your review. This report also includes an optimized per- and polyfluoroalkyl substances (PFAS) sampling strategy. The report contains PDFs of the D-Area Groundwater Operable Unit 2023 Monitoring Results (Table 3), PFAS Results Summary (Table 4), and PFAS Data (Table 5). The data for these tables are also contained in the attached Excel file. As agreed during the meeting, the data summary report will be shared annually via email until submittal of the RCRA Facility Investigation/Remedial Investigation Report with Baseline Risk Assessment in December 2026. In addition, the *Scoping Summary for the D-Area Groundwater Operable Unit (U) – Post-Characterization Scoping Phase* (ERD-EN-2019-0022, Final, November 2023), which documents the discussions and agreements from the scoping meeting, is attached for your files.

Please review the document and provide your comments or approval within sixty (60) days of receipt. The effort and time that the SCDES and the EPA have given on the subject operable units are appreciated.

Attachments:

- ☐☐☐ D-Area Groundwater Operable Unit (OU) Annual Data Summary Report – 2023 Data (U)
(SRNS-RP-2024-01267, Revision 0, November 2024)
- ☐☐☐ Scoping Summary for the D-Area Groundwater Operable Unit (U) – Post-Characterization
Scoping Phase (ERD-EN-2019-0022, Final, November 2023)

Please contact me if you have any questions, comments, or concerns.
