AREA COMPLETION PROJECTS

Dear Mr. Hennessey:

The U.S. Environmental Protection Agency (EPA) has received the Department of Energy, Savannah River Site Responses to EPA Comments on the Monitored Natural Attenuation at the Chemicals, Metals, and Pesticides (CMP) Pits, March 2016-March 2017, CERCLIS #24.

EPA conditionally approves the above mentioned report and responses to comments with the understanding that core team discussion may be necessary in the future with respect to remedial efficacy of the chosen MNA remedy and EPA requests that sample quantitation limits for 1,4 dioxane meet the RSL for 1,4 dioxane in the upcoming sampling event.

Should you have any questions or concerns, please feel free to call me at my cell number 404-229-9500.

Sincerely,

Diedre Lloyd
Remedial Project Manager
