Savannah River Operations Office
P.O. Box A
Aiken, South Carolina 29802

FEB - 5 2018

Ms. Susan B. Fulmer, P.G., Manager
Federal Remediation Section
Division of Site Assessment, Remediation and Revitalization
Bureau of Land and Waste Management
South Carolina Department of Health and Environmental Control
2600 Bull Street
Columbia, South Carolina 29201

Mr. Jon Richards
Acting Savannah River Site Remedial Project Manager
Superfund Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Early Action Statement of Basis/Proposed Plan for the D-Area Operable Unit (U) (SRNS-RP-2017-00723, Revision 0, February 2018), Early Action Statement of Basis/Proposed Plan Fact Sheet for the D-Area Operable Unit (ERD-EN-2018-0001, February 2018), Scoping Summary for the D-Area Operable Unit (ERD-EN-2007-0046, December 2017), and the Draft Public Notice Information, CERCLIS Number: 63

In accordance with the terms of the Federal Facility Agreement, the U. S. Department of Energy (DOE) is submitting the subject document, Scoping Summary, Fact Sheet, and the Draft Public Notice Information for your review. Since the newspaper advertisement will read the same as the Environmental Bulletin, the draft newspaper advertisement has not been included as an enclosure to this submittal letter. Per the implementation schedule, please review the information and provide your comments within sixty (60) days of receipt. The effort and time that the South Carolina Department of Health and Environmental Control and the U. S. Environmental Protection Agency have provided on this operable unit are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-8365, or the DOE Federal Project Director, Karen Adams, at (803) 952-7871.

Sincerely,

Brian T. Hennessey
SRS Remedial Project Manager
Infrastructure and Area Completion Division

IACD-18-125

FEB - 5 2018

Ms. Susan Fulmer
Mr. Jon Richards

DRAFT
APPENDIX VIII-A
SOLID WASTE MANAGEMENT UNIT REMEDY SELECTION

Solid Waste Management Unit	Remedy Selection
D-Area Operable Unit	The D-Area Operable Unit shall be maintained under a combination of No Action for the 489-D Coal Pile Runoff Basin (Southern 75%) and Land Use Controls for the 488-1D Ash Basin, 488-2D Ash Basin, and the 488-4D Ash Landfill subunits by the Permittee as documented in the approved Early Action Statement of Basis/Proposed Plan (Revision 1, September 2018) and the effective Second Early Action Record of Decision (insert revision number and date).

DRAFT RADIO AD

ANNOUNCER:

The U. S. Department of Energy (D-O-E) has released an Early Action Statement of Basis and Proposed Plan on **July 26, 2018** for the proposed remedy of no action and land use controls for the D-Area Operable Unit located at the Savannah River Site, located in Aiken County. The South Carolina Department of Health and Environmental Control (dee-heck) has also released a draft hazardous waste permit modification for the operable unit area. The U. S. D-O-E and DHEC invite your review and comment on the proposed remedy.

The State's draft hazardous waste permit modification along with the administrative record is available during regular office hours of 8:30 a.m. to 5:00 p.m. Monday through Friday at DHEC's Bureau of Land and Waste Management, located at 2600 Bull Street in Columbia, S. C. These materials are also available at DHEC's Midlands Environmental Control Office, located at 206 Beaufort Street in Aiken, S. C.

The D-O-E's Early Action Statement of Basis and Proposed Plan is available from the D-O-E Public Reading Room at the University of South Carolina at Aiken, S. C., the Reese Library Government Information Section at Augusta University in Augusta, Georgia, the Thomas Cooper Library at the University of South Carolina in Columbia, S.C., and the Asa H. Gordon Library at Savannah State University in Savannah, Georgia.

Written comments and requests for a public hearing are to be sent no later than **September 8, 2018** to David Scaturo in DHEC's Bureau of Land and Waste Management, 2600 Bull Street, Columbia, S.C. 29201. You may also contact Janet Griffin of the Savannah River Site at 803-952-8467 or write her at SRS, Building 730-1B, Aiken South Carolina 29808.

DRAFT ENVIRONMENTAL BULLETIN**Early Action Statement of Basis / Proposed Plan for the D-Area Operable Unit
Available for Public Comment**

The United States Department of Energy (DOE) will release an Early Action Statement of Basis / Proposed Plan (EASB/PP) for the D-Area Operable Unit (DAOU) on **July 26, 2018** describing the preferred remedial approach for portions of this unit at the Savannah River Site (SRS). The South Carolina Department of Health and Environmental Control (SCDHEC) will also release a draft Resource Conservation and Recovery Act (RCRA) permit modification for the proposed remedial action for this unit. These documents will be available for public review and copying at the locations listed below. The forty-five (45) day public comment period is scheduled for **July 26, 2018** to **September 8, 2018**.

The Early Action SB/PP was completed to meet the terms of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), a law governing the investigation and cleanup of waste units. DOE has worked with the United States Environmental Protection Agency-Region 4 (EPA) and the SCDHEC to ensure the remedial approach is consistent with all applicable environmental requirements. DOE, EPA, and SCDHEC have reviewed the risks associated with the DAOU and have evaluated cleanup alternatives presented in this plan.

D Area is located within the southwest quadrant of the SRS. The DAOU was built on approximately 210 acres, with the purpose to supply heavy water for the defense program. To support the operations, the 484-D Powerhouse was constructed to provide power to the Site. The 484-D Powerhouse was shut down in 2012. This EASB/PP addresses four subunits that were associated with the operation of the 484-D Powerhouse: 488-1D Ash Basin, 488-2D Ash Basin, 488-4D Ash Landfill, and the 489-D Coal Pile Runoff Basin (Southern 75%). Removal actions for each of these subunits have been completed. A final remedial action is needed at these subunits due to the remaining coal-related contaminants, which may pose a threat to human health and the environment. Groundwater is not considered part of the DAOU and will be addressed in the D-Area Groundwater Operable Unit.

For the 488-1D Ash Basin, 488-2D Ash Basin and the 488-4D Ash Landfill subunits, the proposed remedy is Land Use Controls. Land Use Controls will be implemented in the short-term through the SRS Site Use Program, which includes access controls for on-site workers, and site access control to prohibit trespassing (e.g., fencing and entry control systems) from off-site personnel. In the long-term, if the property is ever transferred to nonfederal ownership, the deed shall include restrictions precluding residential use of the property. For the 489-D Coal Pile Runoff Basin (Southern 75%) subunit, the proposed remedy is No Action, since it poses no threat to human health or the environment.

Comments on the Early Action SB/PP and the draft RCRA permit are requested by **September 8, 2018**. Upon completion of the public comment period, a Responsiveness Summary that addresses public comments will be prepared. The Responsiveness Summary will be made available with the Record of Decision and the final RCRA permit modification and will be sent to each person who submits comments.

To aid in the review of the Early Action SB/PP, an Early Action SB/PP Fact Sheet for the DAOU was prepared.

DRAFT ENVIRONMENTAL BULLETIN**Early Action Statement of Basis / Proposed Plan for the D-Area Operable Unit
Available for Public Comment**

Copies of the Early Action SB/PP and the Fact Sheet are available in the Administrative Record. The Administrative Record is available in the information repositories listed below:

- DOE Public Reading Room at the Gregg-Graniteville Library at the University of South Carolina (USC)-Aiken campus in Aiken, SC; and
- Thomas Cooper Library Government Documents Department at USC in Columbia, SC.

Hard copies of the Early Action SB/PP and Fact Sheet are available at the following locations:

- Reese Library Government Information Section at Augusta University in Augusta, GA; and
- Asa H. Gordon Library at Savannah State University in Savannah, GA.

The Early Action SB/PP and Fact Sheet are available electronically at the following address:

<http://www.srs.gov/general/programs/soil/pub/pubinv.html>

Copies of the draft RCRA permit modification are available for review at SCDHEC during regular business hours, 8:30 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the following locations:

SCDHEC
Bureau of Land and Waste Management
2600 Bull Street
Columbia, SC 29201
Phone: (803) 898-2000

or

SCDHEC-Region 5
Midlands EQC Region - Aiken
206 Beaufort St., N.E.
Aiken, SC 29801
Phone: (803) 642-1637

If there is interest in discussing the recommended remedial approach, a public hearing may be requested. Comments on the Early Action SB/PP should be sent to Ms. Janet Griffin. Comments on the draft RCRA permit modification or requests for a public hearing should be sent to Mr. David Scaturo. For additional information or to request a public meeting contact:
