Heather and Jon – Thank you for allowing us to suspend the Rev.1.1 FS submittal date of June 7. Just a clarification— until we know more about the dispute resolution timeline/outcome, we can’t really propose a new submittal date.

We are working on comment responses now and awaiting further information on the ARAR situation. At some point we will need to submit a 90-day extension request for the Rev.0 Proposed Plan that is currently due on 7/29.

Let me know if you’d like to discuss any aspect of the LTR FS or PP.

Thanks.
