**AREA COMPLETION PROJECTS**

**EPA Approval Federal Facility Agreement Revision 0 Appendix E, Long-Term Projections for Fiscal Year 2026, November 13, 2025**

Dear Mr. Baker:

The U.S. Environmental Protection Agency, Region 4 (EPA), has reviewed the FFA R0 Appendix E, Long-Term Projections for FY26, dated 11/4/25 and received 11/17/25.

EPA is extremely grateful for the long time of cooperation with DOE and SC on SRS CERCLA work under the FFA, as this is not always the same for other DOE sites, we certainly do not take for granted these very successful accomplishments over the last 32 years. We certainly hope this continues in the near and longer future until completion of all cleanup. EPA concurs with the state in requesting an evaluation be completed in the upcoming year to identify any projects that can be incorporated into the E.1 and E.2 timeframes. And again, every new FY has its own challenges and we fully expect the Savannah River Operations Office to seek appropriate funding levels to fully implement Appendix E and accelerate the schedule where possible.

EPA approves this Appendix E for FY26 submittal.

If you have any questions or require additional information, please contact Jon Richards at (404) 431-1340.

Sincerely,

**JON RICHARDS**
