December 6, 2022

Mr. Brian T. Hennessey, SRS Remedial Project Manager
Infrastructure and Area Completion Division
U. S. Department of Energy
Savannah River Operations Office
Post Office Box A
Aiken, South Carolina 29802

AREA COMPLETION PROJECTS

Re: Completion of Federal Facility Agreement Milestone "Demonstration of Ancillary Structure Closure (FDB-5 and FDB-6) – Operational Closure" located in the *2019 Suspension Agreement Federal Facility Agreement (FFA) High Level Waste (HLW) Tanks Milestones*, (SEMS Number: 23), received November 16, 2022.

Dear Mr. Hennessey:

On October 25, 2022, representatives from the South Carolina Department of Health and Environmental Control, the U. S. Environmental Protection Agency, the U. S. Department of Energy, and Savannah River Missions Completion performed a site visit to the F-Tank Farm at the Savannah River Site. The purpose of this site visit was to visually confirm, to the extent possible, the completion of grouting efforts at FDB-5 and FDB-6. Based on this inspection, it appears that grouting operations at the diversion boxes are complete as outlined in the approved closure module.

If you should need any further clarification on this matter, please feel free to contact me at (803) 898-4331.

Sincerely,

Susan B. Fulmer Digitally signed by Susan B. Fulmer
