Mr. Jon Richards
Savannah River Site Remedial Project Manager
Superfund Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Decommissioning Project Final Report 236-H, By-Product Purification Facility (V-PCOR-H-00016, Revision 0, September 9, 2024)

The U. S. Department of Energy (DOE) is submitting the subject document for your review according to the agreed upon protocol and the Memorandum of Agreement for Achieving an Accelerated Cleanup Vision for the Savannah River Site. The 236-H, By-Product Purification Facility was decommissioned using the Integrated Sampling Model. The South Carolina Department of Environmental Services (SCDES) conditionally concurred and U. S. Environmental Protection Agency (EPA) concurred on the use of the Integrated Sampling Model in their letters dated May 9, 2028 and May 21, 2018, respectively. The initial regulatory walkdown of the facility occurred prior to deactivation activities. In their conditional concurrence letter, the SCDES requested that another regulatory walkdown be conducted upon completion of facility deactivation and prior to the initiation of any decommissioning activities. The second walkdown occurred on August 30, 2023. Per the subject document, the facility remnants will be added to Appendix K.2 of the Federal Facility Agreement upon SCDES and EPA approval of the subject document.

Hard copies and compact disks are enclosed according to the agreed upon distribution. Please review the enclosed document with the goal of responding within sixty (60) days of receipt. The effort and time that the SCDES and EPA have given on the subject facility are greatly appreciated.

Ms. Susan Fulmer
Mr. Jon Richards
