Mr. Matthew R. Baker, Acting FFA Remedial Project Manager
Remediation, Deactivation and Decommissioning Division
U. S. Department of Energy
Savannah River Operations Office
Post Office Box A
Aiken, South Carolina 29802

Re: Seventh Five-Year Remedy Review Report for Savannah River Site Operable Units with Engineered Cover Systems (U) Aiken, South Carolina, SEMS Number: 00 (SRNS-RP-2025-01064, Revision 1, August 2026) (Redline Pages) received September 2, 2026.

Dear Mr. Baker:

The Department has completed its review of the above reference document pursuant to the Savannah River Federal Facility Agreement. Based on this review, the following comments were generated. Due to the nature of these comments, the Department is confident that the necessary changes can be made to the final clean copy version with resolution. Therefore, the above referenced Revision 1 is conditionally approved provided the following comments are addressed and incorporated:

1. Specific Comment #1: The approved Responses to Comments agreed to revise the IROD Issuance Date for M-Area Hazardous Waste Management Facility in Table A-4 from September 16, 1992 to September 6, 1992; however, Table A-4 still lists September 16, 1992 as the issuance date. Please correct.

2. Specific Comment #4: The approved Responses to Comments, which were submitted along with the redline pages, included a revised Figure F-6 for the Ford Building Seepage Basin as an attachment; however, this revised figure was not included in the Revision 1 Redline Pages submittal itself. Please ensure that the figure is incorporated into the final copy of the report.

If you have any questions, please contact me at (803) 898-4331.

Sincerely,

Susan B. Fulmer Digitally signed by Susan B. Fulmer
