Mr. Jon Richards
Acting Savannah River Site Remedial Project Manager
Superfund Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Extension Request for the Submittal of the Feasibility Study (SRNS-RP-2018-00199, Revision 0) for the Lower Three Runs Integrator Operable Unit (U), SEMS Number: 35

In accordance with the terms of Section XXXI of the Federal Facility Agreement, the U. S. Department of Energy (DOE) is requesting an extension for submittal of the information indicated in the subject line above.

Schedule That Is Sought to Be Changed and/or Extended

The Lower Three Runs Integrator Operable Unit Revision 0 Feasibility Study (FS) submittal scheduled for July 10, 2018.

Length of Extension Requested

The DOE proposes to extend the Lower Three Runs Integrator Operable Unit Revision 0 FS submittal for forty-five (45) days from July 10, 2018 to August 24, 2018.

Cause of The Extension

This extension is being sought under the terms of the FFA Section XXXI.B.5: "A delay caused by additional work agreed to by the Parties."

During the FS Adobe Webcast Scoping meeting held on March 5, 2018, the Core Team agreed that additional time is required to perform the Response Action analysis for the multiple exposure areas that have been defined within the Lower Three Runs Integrator Operable Unit. Based on this agreement, the DOE submitted an initial extension request for ninety (90) days for the FS and subsequent milestones (IACD-18-141, dated March 15, 2018). The South Carolina Department of Health and Environmental

Control (SCDHEC) and U. S. Environmental Protection Agency (EPA) approved the extension request on March 19, 2018 and March 29, 2018, respectively. Due to the complexity of the Lower Three Runs Integrator Operable Unit project and the detailed evaluation of remedial alternatives for nine exposure areas, additional time is needed to prepare the FS report.

Related Commitments or Schedules That Will Be Impacted by The Granting of The Extension

The granting of this extension will not impact additional milestone submittals that occur after the FS submittal.

Please review the information contained in this extension request and provide your response within fourteen (14) business days from receipt. The effort and time that the EPA and the SCDHEC have given on the subject operable unit are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-8365.

Sincerely,

Brian T. Hennessey
SRS Remedial Project Manager
Infrastructure and Area Completion Division
