Columbia, South Carolina 29201

Mr. Jon Richards
Savannah River Site Remedial Project Manager
Superfund and Emergency Management Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: 2025 Groundwater Mixing Zone Report for the D-Area Oil Seepage Basin (631-G) (U) (SRNS-RP-2026-00334, Revision 0, July 2026) SEMS Number: 27

In accordance with the terms of the Federal Facility Agreement, the U. S. Department of Energy (DOE) is submitting the subject report for your review. The report was prepared to support the regulatory reporting requirements for the D-Area Oil Seepage Basin (DAOSB) Operable Unit as specified in the Groundwater Mixing Zone Application for the DAOSB (WSRC-RP-97-422, Revision 1.5, May 2009). During even-numbered years (such as this one), a mixing zone report that contains groundwater data tables, contaminant plume maps, and descriptions of groundwater monitoring data and results will be submitted. During odd-numbered years, only a letter report that summarizes the previous year's groundwater monitoring data and data results will be submitted. Please review the subject report and provide your comments within one hundred twenty (120) days of receipt.

The time and effort that the South Carolina Department of Environmental Services and the U. S. Environmental Protection Agency have given on the subject operable unit are greatly appreciated. Questions from you or your staff may be directed to me at (803) 952-6211.

Sincerely,

MATTHEW BAKER
