AREA COMPLETION PROJECTS

Dear Mr. Hennessey:

The U.S. Environmental Protection Agency (EPA) has reviewed the Department of Energy, Savannah (DOE-SRS) River Site Responses to EPA Comments on the D Area Groundwater Operable Unit Report for Calendar Year 2020, SEMS # 63, dated July 2021.

EPA approves this report with the understanding that AL levels will continue to be monitored near wells in the southeast area of the site and may request the addition of a MW to delineate the AL plume in the future. Should you have any questions or concerns, please feel free to call me at my cell number 404-229-9500.

Sincerely,

A handwritten signature in cursive script that reads "Diedre Lloyd".

Diedre Lloyd
