Mr. Brian T. Hennessey, SRS Remedial Project Manager
Infrastructure and Area Completion Division
U. S. Department of Energy
Savannah River Operations Office
Post Office Box A
Aiken, South Carolina 29802

Re: Statement of Basis/Proposed Plan for the G-Area Oil Seepage Basin (GOSB) (761-13G) Operable Unit (OU) (U), SEMS Number: 93 (SRNS-RP-2018-00460, Redline Revision 1, October 2018) received October 12, 2018.

Dear Mr. Hennessey:

The Department has completed its review of the above reference document pursuant to the Savannah River Federal Facility Agreement. Based on this review, the following comment was generated. Due to the nature of this comment, the Department is confident that the necessary changes can be made to the final clean copy version with resolution. Therefore, the above referenced Revision 1 is conditionally approved providing the following comment is addressed and incorporated:

1. Section VIII. Evaluation of Alternatives, Long-Term Effectiveness and Permanence, page 14. The word "mitigated" was replaced by the word "reduced" in the second paragraph of the second column of this page, as agreed to in the response to comments on the Revision 0 document; however, the word "eliminated" in the following sentence was not replaced with "prevented". Please revise.

If you have any questions, please contact me at (803) 898-4331.

Sincerely,

A handwritten signature in blue ink that reads "Susan B. Fulmer".

Susan B. Fulmer, P.G., Manager
Federal Remediation Section
Division of Site Assessment, Remediation, and Revitalization
Bureau of Land and Waste Management
