AUG -1 2022

Ms. Susan B. Fulmer, P.G., Manager  
Federal Remediation Section  
Division of Site Assessment, Remediation and Revitalization  
Bureau of Land and Waste Management  
South Carolina Department of Health and Environmental Control  
2600 Bull Street  
Columbia, South Carolina 29201

Mr. Jon Richards  
Savannah River Site Remedial Project Manager  
Superfund Division  
U. S. Environmental Protection Agency, Region 4  
61 Forsyth Street, SW  
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

**SUBJECT:** Statement of Basis/Proposed Plan for the Early Construction and Operational Disposal Site N-1 (NBN), Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit (U) (SRNS-RP-2022-00202, Revision 0, July 2022), Statement of Basis/Proposed Plan Fact Sheet (SRNS-RP-2022-00528, July 2022), Scoping Summary (SRNS-RP-2019-00764, June 2022 Final), and the Draft Public Notice\_Information, SEMS Number: 93

In accordance with the terms of the Federal Facility Agreement, the U. S. Department of Energy is submitting the subject Statement of Basis/Proposed Plan, Fact Sheet, and the Draft Public Notice Information for your review. Since the newspaper advertisement will read the same as the Environmental Bulletin, the draft newspaper advertisement has not been included as an enclosure to this submittal letter. The Scoping Summary (SRNS-RP-2019-00764, June 2022 Final), which documents the agreements from the June 7, 2022 scoping meeting, is enclosed to aid in your review. Please review the information and provide your comments within sixty (60) days of receipt. The effort and time that the South Carolina Department of Health and Environmental Control and the U. S. Environmental Protection Agency have provided on this operable unit are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-8365.

Sincerely,

**Brian T. Hennessey**

Digitally signed by Brian T.

## **DRAFT ENVIRONMENTAL BULLETIN**

### **Statement of Basis / Proposed Plan for the Early Construction and Operational Disposal Site (N-1) (NBN) Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit Available for Public Comment**

The United States Department of Energy (DOE) will release a Statement of Basis / Proposed Plan (SB/PP) for the Early Construction and Operational Disposal Site (N-1), Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit on **Month Day Year** describing the preferred remedial approach for this unit at the Savannah River Site (SRS). The South Carolina Department of Health and Environmental Control (SCDHEC) will also release a draft Resource Conservation and Recovery Act (RCRA) permit modification for the proposed remedial action for this unit. These documents will be available for public review and copying at the locations listed below. The forty-five (45) day public comment period is scheduled for **Month Day Year** to **Month Day Year**.

The SB/PP was completed to meet the terms of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), a law governing the investigation and cleanup of waste units. DOE has worked with the United States Environmental Protection Agency-Region 4 (EPA) and the SCDHEC to ensure the remedial approach is consistent with all applicable environmental requirements. DOE, EPA, and SCDHEC have reviewed the risks associated with this unit and have evaluated the cleanup alternatives presented in this plan.

N Area (i.e., Central Shops) is located near the center of the SRS. This SB/PP addresses the three OU subunits that are located within the N area proper: Early Construction and Operational Disposal Site (N-1), Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building). A final remedial action is needed at each of these subunits due to the presence of contaminants, which may pose a threat to human health and the environment. Groundwater is not considered part of this unit and will be addressed in the Central Shops Groundwater Operable Unit.

For the Early Construction and Operational Disposal Site (N-1) and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) subunits, the proposed remedy is Land Use Controls. The future land use for the Early Construction and Operational Disposal Site (N-1) and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) subunits will be industrial. Land Use Controls will be implemented in the short-term through the SRS Site Use Program, which includes access controls for on-site workers to the OU, and SRS access control (e.g., fencing and entry control systems) to prohibit trespassing by off-site personnel. In the long-term, if the property is ever transferred to nonfederal ownership, a deed shall include restrictions precluding residential use of the property.

For the Central Shops Scrap Lumber Pile (631-2G) subunit, the proposed remedy is excavation (hot spot removal) and disposal of contaminated surface soil and sediment. No Land Use Controls will be needed following the hot spot removal, and the future land use for the Central Shops Scrap Lumber Pile (631-2G) will be unrestricted although only industrial use is anticipated.

Comments on the SB/PP and the draft RCRA permit are requested by **Month Day, Year**. Upon completion of the public comment period, a Responsiveness Summary that addresses public comments will be prepared. The Responsiveness Summary will be made available with the Record

**DRAFT ENVIRONMENTAL BULLETIN**

**Statement of Basis / Proposed Plan for the Early Construction and Operational Disposal Site (N-1) (NBN) Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit  
Available for Public Comment**

of Decision and the final RCRA permit modification and will be sent to each person who submits comments.

To aid in the review of the SB/PP, a SB/PP Fact Sheet for the Operable Unit was prepared.

Copies of the SB/PP and the Fact Sheet are available in the Administrative Record. The Administrative Record is available in the information repositories listed below:

- DOE Public Reading Room at the Gregg-Graniteville Library at the University of South Carolina (USC)-Aiken campus in Aiken, SC; and
- Thomas Cooper Library Government Documents Department at USC in Columbia, SC.

Hard copies of the SB/PP and Fact Sheet are available at the following locations until (date):

- Reese Library Government Information Section at Augusta University in Augusta, GA; and
- Asa H. Gordon Library at Savannah State University in Savannah, GA.

The SB/PP and Fact Sheet are available electronically at the following address:

<http://www.srs.gov/general/programs/soil/pub/pubinv.html>

Copies of the draft RCRA permit modification are available for review at SCDHEC during regular business hours, 8:30 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the following locations:

SCDHEC  
Bureau of Land and Waste Management  
2600 Bull Street  
Columbia, SC 29201  
Phone: (803) 898-2000

or

SCDHEC  
–Aiken Environmental Affairs Office  
206 Beaufort St., N.E.  
Aiken, SC 29801  
Phone: (803) 642-1637

If there is interest in discussing the recommended remedial approach, a public hearing may be requested. Comments on the Action SB/PP should be sent to Barbara Smoak. Comments on the draft RCRA permit modification or requests for a public hearing should be sent to Ms. Stacey French. For additional information or to request a public meeting contact:

**DRAFT APPENDIX VIII-A**  
**SOLID WASTE MANAGEMENT UNIT REMEDY SELECTION**

Solid Waste Management Unit	Remedy Selection
Early Construction and Operational Disposal Site 1 (NBN), Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit	The subunits shall be remediated under a combination of Land Use Controls, and Excavation and Disposal by the Permittee as documented in the approved Statement of Basis/Proposed Plan for the Early Construction and Operational Disposal Site (N-1) (NBN) Central Shops Scrap Lumber Pile (631-2G). and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit (SRNS-RP-2022-00202, Rev. 1, MM 2022) and the effective Record of Decision for the Early Construction and Operational Disposal Site (N-1) (NBN) Central Shops Scrap Lumber Pile (631-2G). and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit (SRNS-RP-2023-xxxxx, Rev. 1, MM 2023)

**ANNOUNCER:**

The U. S. Department of Energy (D-O-E) released a Statement of Basis and Proposed Plan on **Month day, 2023** for the Early Construction and Operational Disposal Site (E-CODS) N-1, Central Shops Scrap Lumber Pile, and Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit at the Savannah River Site (S-R-S). The proposed remedy includes a combination of excavation and disposal, and Land Use Controls for this Operable Unit. The South Carolina DHEC (dee-heck) also released a draft hazardous waste permit modification for the remedy, which is available at DHEC's (dee-heck's) Aiken Environmental Affairs Office. The public is invited to review and comment on the proposed remedy.

This document is available at the D-O-E Public Reading Rooms at the University of South Carolina – Aiken, Augusta University, the University of South Carolina – Columbia, Savannah State University, and is available on the S-R-S webpage, [www.srs.gov](http://www.srs.gov).

Written comments and requests for a public hearing must be received no later than **Month day, 2023** by Stacey French of DHEC at [frenchsl@dhec.sc.gov](mailto:frenchsl@dhec.sc.gov) or Barbara Smoak of S-R-S at [barbara.smoak@srs.gov](mailto:barbara.smoak@srs.gov).
