Mr. Jon Richards
Savannah River Site Remedial Project Manager
Superfund Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Federal Facility Agreement Annual Progress Report for Fiscal Year 2022 (SRNS-RP-2022-01026, November 2022)

In accordance with the terms of Section XXV, Reporting, of the Federal Facility Agreement (FFA) for the Savannah River Site (SRS), the U. S. Department of Energy is submitting the subject information for your files. This year's report summarizes information for major Area Completion Project activities for Fiscal Year (FY) 2022 and work planned for FY2023. In addition to the requirements set forth in the FFA, this document contains the certification for those units utilizing land use controls (LUCs) as a remedy or part of a remedy, as stipulated in the LUC Assurance Plan for the SRS. The LUC certification also includes units with interim remedies that recognize SRS facility security and administrative controls that restrict unauthorized access as long-term protective of human health and the environment. The unit-specific LUCs for these units are deferred until final closure of the units. As agreed to by the Parties, a section was added to the report referencing the Administrative Record File/Information Repository File information that is posted on the SRS external web page.

The effort and time that the U. S. Environmental Protection Agency and South Carolina Department of Health and Environmental Control have given on the subject document are greatly appreciated.

Ms. Susan B. Fulmer
Mr. Jon Richards
