Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Sixth Five-Year Remedy Review Report for Savannah River Site Operable Units with Groundwater Remedies (U) Aiken, South Carolina (SRNS-RP-2019-00511, Revision 0, December 2019), Sixth Five-Year Remedy Review Report for SRS Operable Units with Groundwater Remedies Fact Sheet (SRNS-RP-2019-00743, December 2019), and Scoping Summary for the Sixth Five-Year Remedy Review Report for Savannah River Site Operable Units with Groundwater Remedies (U) (SRNS-RP-2019-00506, Final, September 2019) SEMS Number: 00

The U. S. Department of Energy (DOE) is submitting the Sixth Five-Year Remedy Review Report for Savannah River Site Operable Units with Groundwater Remedies (U) Aiken, South Carolina (SRNS-RP-2019-00511, Revision 0, December 2019) and associated Fact Sheet (SRNS-RP-2019-00743, December 2019) for your review. A draft Scoping Summary was submitted electronically to the South Carolina Department of Health and Environmental Control (SCDHEC) and U. S. Environmental Protection Agency (EPA) on August 15, 2019. SCDHEC provided two comments on the scoping summary on August 28, 2019 that were resolved the same day. The EPA reviewed the revised draft scoping summary and replied on September 17, 2019 that they had no additional comments. Based on their respective reviews of the draft scoping summary, SCDHEC and EPA agreed that there was not a need to conduct a scoping meeting for the groundwater remedies report. The Scoping Summary (SRNS-RP-2019-00506, Final, September 2019) is enclosed to aid in your review of the groundwater remedies report.

Please review the report and fact sheet and provide any comments within ninety (90) days of receipt. The effort and time that the SCDHEC and EPA have given on the subject report are greatly appreciated.

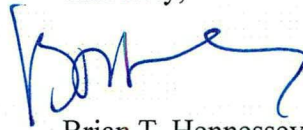

Ms. Susan Fulmer
Mr. Jon Richards
