EPA COMMENTS:

- 1. Section 2.01, Facility Description, Page 7 of 11:** The DPFR describes 80-22D, D-Area Bone Yard (The Bone Yard) as an ancillary structure to Building 484-13D and was used for “miscellaneous storage”; however, it is unclear what items were stored in the Bone Yard. Please revise the text to clarify what was stored in 80-22D, D-Area Bone Yard to ensure that no chemical, hazardous, or radioactive materials were associated with this structure.
