Re: Request for Approval of the Operable Unit Strategy Change for the Sandblast Area CMH-002 (NBN) and the Spill on 02/01/57 of Unknown of Seepage Basin Pipe Leak from 904-44G (NBN), SEMS Number: 61, dated August 24, 2023 and received August 25, 2023.

Dear Mr. Hennessey:

The Department has reviewed the request for the change in the administrative pathway for Sandblast Area CMH-002 (NBN) and the Spill on 02/01/57 of Unknown of Seepage Basin Pipe Leak from 904-44G (NBN) Operable Unit. As a result of multiple meetings, the Department agrees with the decision to remove the current Federal Facility Agreement (FFA) milestone for the submittal of the RCRA Facility Investigation/Remedial Investigation Work Plan and all subsequent milestones for this operable unit from the FFA. It is further acknowledged that the Sandblast Area CMH-002 (NBN) will be added to the H-Area Operable Unit, and the Spill on 02/01/57 of Unknown of Seepage Basin Pipe Leak from 904-44G (NBN) will be moved from Appendix C to Appendix G.1 for further investigation and final placement Appendix G.2.

If you have any questions, please contact me at (803) 898-4331.

Sincerely,

Susan B. Fulmer Digitally signed by Susan B. Fulmer
