**CAUTION**

The Inspector shall IMMEDIATELY notify the Post-Closure Manager and Environmental Compliance Authority if there has been a breach or compromise of the institutional controls of this waste unit. This notification shall be in accordance with Savannah River Site post-closure inspection procedures.

**NOTE**

1. Manual C3, ER-SOP-019, *Waste Unit Inspection and Maintenance*, shall be referred to for inspection details.
2. A-Area Ash Pile (788-A) is not a closed waste unit; however, inspection of this waste unit under the post closure program is warranted to monitor slope stability until remediation activities begin.
3. Land use controls have not been finalized for this waste unit because remediation is not complete.
4. Steps in this checklist may be completed concurrently or in any order.

 **SCHEDULED**
 **UNSCHEDULED**

A = Satisfactory X = Unsatisfactory (Explanation required)		A or X	Observation/Corrective Action Taken
1.	Verify roads to waste unit are accessible.	A	
2.	Verify the waste unit warning signs are in acceptable condition, have the correct information and are legible from a distance of 25 feet.	A
