Columbia, South Carolina 29201

Mr. Jon Richards
Savannah River Site Remedial Project Manager
Superfund and Emergency Management Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Statement of Basis/Proposed Plan for the Early Construction and Operational Disposal Site L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit (U) (SRNS-RP-2025-00724, Revision 0, June 2025), Statement of Basis/Proposed Plan Fact Sheet (SRNS-RP-2025-00790, June 2025), Scoping Summary (SRNS-RP-2021-05232, April 2025, Final), and the Draft Public Notice Information, SEMS Numbers: 91

In accordance with the terms of the Federal Facility Agreement (FFA), the U. S. Department of Energy (DOE) is submitting the subject Statement of Basis/Proposed Plan, Fact Sheet, and the Draft Public Notice Information for your review. Since the newspaper advertisement will read the same as the Environmental Bulletin, the draft of it is not included as an enclosure to this submittal letter. The final scoping summary reflects the agreements reached at the April 29, 2025, Core Team Scoping Meeting and is included to aid in your review. Please review the enclosed document and provide your comments or approval within sixty (60) days of receipt. The time and effort that the South Carolina Department of Environmental Services and the U. S. Environmental Protection Agency have given on the subject operable unit are greatly appreciated.

Comments or questions from you or your staff may be directed to me at (803) 952-6211 or the DOE Program Manager, April Coffman, at (803) 508-0490.

Sincerely,

**MATTHEW

DRAFT ENVIRONMENTAL BULLETIN

Statement of Basis/Proposed Plan for the Early Construction and Operational Disposal Site L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit Available for Public Comment

The United States Department of Energy (DOE) will release a Statement of Basis/Proposed Plan (SB/PP) for the Early Construction and Operational Disposal Site (ECODS) L-3 (NBN), L-Area Rubble Pit (131-1L) (LRP 131-1L), and L-Area Rubble Pit (131-4L) (LRP 131-4L) Operable Unit (OU) on Month Day, Year, describing the preferred remedial approach for this unit at the Savannah River Site (SRS). The South Carolina Department of Environmental Services (SCDES) will also release a draft Resource Conservation and Recovery Act (RCRA) permit modification for the proposed remedial action for this unit. These documents will be available for public review and copying at the locations listed below. The forty-five (45) day public comment period is scheduled for Month Day, Year, to Month Day, Year.

The SB/PP was completed to meet the terms of the Comprehensive Environmental Response, Compensation, and Liability Act, a law governing the investigation and cleanup of waste units. DOE has worked with the United States Environmental Protection Agency-Region 4 (EPA) and the SCDES to ensure the remedial approach is consistent with all applicable environmental requirements. DOE, EPA, and SCDES have reviewed the risks associated with this OU and have evaluated the cleanup alternatives presented in this plan.

The ECODS L-3, LRP 131-1L, and LRP 131-4L OU is located in the southern portion of the SRS. A final remedial action is needed at the ECODS L-3 and LRP 131-4L subunits because contaminants are present in soil that may pose a threat to human health and the environment. A final action is not required at the LRP 131-1L subunit because there is no contamination present that poses a threat to human health or the environment. Groundwater is not part of the OU and is being addressed by the L-Area Southern Groundwater OU.

For the ECODS L-3 and LRP 131-4L subunits, the proposed remedy is Land Use Controls (LUCs). The future land use for the ECODS L-3 and LRP 131-4L subunits will be industrial. LUCs will include engineering controls (signs indicating access restrictions and the presence of asbestos containing material) and administrative measures (deed restrictions, excavation permit restrictions, and worker protection programs) to effectively reduce exposure of contaminated media to human receptors. Five-year remedy reviews would be required under this remedy.

For the LRP 131-1L subunit, the proposed remedy is No Action. No Action is recommended due to no problems warranting action for this subunit. The future land use for this subunit will be unrestricted.

Comments on the SB/PP and the draft RCRA permit are requested by Month Day, Year. Upon completion of the public comment period, a Responsiveness Summary that addresses public comments will be prepared. The Responsiveness Summary will be made available with the Record of Decision and the final RCRA permit modification and will be sent to each person who submits comments.

To aid in the review of the SB/PP, a SB/PP Fact Sheet for the OU was prepared.

DRAFT ENVIRONMENTAL BULLETIN

**Statement of Basis/Proposed Plan for the Early Construction and Operational Disposal Site
L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit
Available for Public Comment**

Copies of the SB/PP and the Fact Sheet are available in the Administrative Record. The Administrative Record is available in the information repositories listed below:

US Department of Energy

**DRAFT APPENDIX VIII-A
SOLID WASTE MANAGEMENT UNIT REMEDY SELECTION**

Solid Waste Management Unit	Remedy Selection
Early Construction and Operational Disposal Site (ECODS) L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit (OU)	The ECODS L-3 and L-Area Rubble Pit (131-4L) subunits shall be remediated by Land Use Controls and the L-Area Rubble Pit (131-1L) subunit requires No Action by the Permittee as documented in the approved Statement of Basis/Proposed Plan (SRNS-RP-2025-00724, Revision X, MM 2025) and the effective Record of Decision for the ECODS L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) OU (SRNS-RP-YYYY-XXXXX, Revision #, MM YYYY).

ANNOUNCER:

The U. S. Department of Energy (D-O-E) released a Statement of Basis and Proposed Plan on Month Day, Year for Early Construction and Operational Disposal Site L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit at the Savannah River Site (S-R-S). The proposed remedy includes a combination of Land Use Controls and No Action for this Operable Unit. The South Carolina Department of Environmental Services (S-C-D-E-S) also released a draft hazardous waste permit modification for the remedy, the draft is available at S-C-D-E-S's Midland Aiken Environmental Affairs Office. The public is invited to review and comment on the proposed remedy.

This document is available at the D-O-E Public Reading Rooms at the University of South Carolina – Aiken, Augusta University, the University of South Carolina – Columbia, Savannah State University, and is available on the S-R-S webpage, www.srs.gov.

Written comments and requests for a public hearing must be received no later than Month Day, Year by Kent Krieg of S-C-D-E-S at kent.krieg@des.sc.gov or Barbara Smoak of S-R-S at barbara.smoak@srs.gov.
