Mr. Jon Richards  
Acting Savannah River Site Remedial Project Manager  
Superfund Division  
U. S. Environmental Protection Agency, Region 4  
61 Forsyth Street, SW  
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Facility Decommissioning Evaluation Building 614-1A, General Monitoring Building; Building 614-1D, General Monitoring Building; Building 614-F, General Monitoring Building; and Building 614-65G, Equipment Shed (G-FDE-G-00022, Revision 0, December 6, 2018) Simple Model

The U. S. Department of Energy (DOE) is submitting the subject Facility Decommissioning Evaluation (FDE) for your review according to the Memorandum of Agreement for Achieving an Accelerated Cleanup Vision for the Savannah River Site. The Simple Model is the selected decommissioning model for Building 614-1A, General Monitoring Building; Building 614-1D, General Monitoring Building; Building 614-F, General Monitoring Building; and Building 614-65G, Equipment Shed. Since these facilities will be decommissioned using the Simple Model, they require no further evaluation or response action and will be included on Appendix K.2 of the Federal Facility Agreement upon completion of decommissioning and the approval of the Decommissioning Project Final Report. DOE is submitting the FDE according to the FDE Protocol. An overview and walk down are not currently scheduled for the facilities. Please contact DOE if your agencies are interested in an overview and field visit.

Hard copies and compact disks are enclosed according to the agreed upon distribution. Please submit your concurrence and/or comments to me within thirty (30) days of receipt. The effort and time that the South Carolina Department of Health and Environmental Control and U. S. Environmental Protection Agency have given on the subject report are greatly appreciated.

Ms. Susan Fulmer  
Mr. Jon Richards
