

ENVIRONMENTAL BULLETIN**NOTICE OF AVAILABILITY
REMEDIAL DESIGN FACT SHEET AVAILABLE FOR THE EARLY
CONSTRUCTION AND OPERATIONAL DISPOSAL SITE N-1 (NBN), CENTRAL
SHOPS SCRAP LUMBER PILE (631-2G), AND BUILDING 690-N, PROCESS HEAT
EXCHANGER REPAIR FACILITY (AKA FORD BUILDING) OPERABLE UNIT (U)
AT THE SAVANNAH RIVER SITE**

The United States Department of Energy (DOE), the United States Environmental Protection Agency – Region 4, and South Carolina Department of Health and Environmental Control announce the availability of a Remedial Design Fact Sheet for the Early Construction and Operational Disposal Site (ECODS) N-1 (no building number [NBN]), Central Shops Scrap Lumber Pile (631-2G), and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) Operable Unit (OU). This OU is located at the Savannah River Site (SRS) in Barnwell County, South Carolina.

The selected remedial actions for this OU are a combination of land use controls (LUCs) and excavation (hot spot removal) and disposal. The remedial actions are necessary for the overall protection of human health and the environment due to the presence of contaminants at the subunits. For the ECODS N-1 (NBN) and Building 690-N, Process Heat Exchanger Repair Facility (aka Ford Building) subunits, the selected remedial alternative is LUCs. For the Central Shops Scrap Lumber Pile (631-2G) subunit, the selected remedy is excavation (hot spot removal) and disposal of arsenic-contaminated surface soil and sediment, which supports unrestricted land use (i.e., no LUCs) after completion of the remedial action. Groundwater is not considered part of this OU but will be addressed in the Central Shops Groundwater OU.

The Remedial Design Fact Sheet for this remedy is available in the Administrative Record. The Administrative Record is available in the information repositories listed below:

- DOE Public Reading Room at the Gregg-Graniteville Library at the University of South Carolina (USC)-Aiken campus in Aiken, SC; and
- Thomas Cooper Library Government Information and Maps Department at USC in Columbia, SC.

Hard copies of the Remedial Design Fact Sheet is available at the following locations for 30 days:

- Reese Library Government Information Section at Augusta University in Augusta, GA; and
- Asa H. Gordon Library at Savannah State University in Savannah, GA.
