Subject: List of 483-3D Documents to Be Voided Following Deactivation and
Decommissioning of This Facility

Building 483-3D has been deactivated and decommissioned (i.e., demolished and all associated appurtenances removed). Since the facility no longer exists, the following documents need to be "voided" and no longer maintained in the DCR system.

1. E-E1-D-0107 – Replacement of Underground Cable D-Area Bldg 483-3D Switchgear (U) AW1 and AW2 Transformer Feeder Pole Details (U)
2. E-E9-D-0126 - Replacement of Underground Cable D-Area Bldg 483-3D Enlarged_ (U) Plan & Details (U)
3. W2022977 – 112.5KVA Lighting Transformer Feeder Breaker Coord Curve & SLD(U)
4. W2022973 – 480V Main & Bus Tie Breaker Coord Curve & Single Line Diagram (U)
5. W2022974 – WCC-W3 Feeder Breaker Coordination Curve & Single Line Diagram (U)
6. W2022975 – WCC-W2 Feeder Breaker Coord. Curve & Single Line Diagram (U)
7. W2022976 – WCC-W1 Feeder Breaker Coord. Curve & Single Line Diagram (U)
8. W2022978 – 75KVA Lighting Transformer Feeder Breaker Coord. Curve & SLD (U)
9. M-EPF-D-00001 – Establishment of MSB Screening Process for D-483 Facilities
10. VPF3432-000001 – Dimension Sheet

EC&ACP Engineering and Site Services have agreed that the above list of documents is the correct and comprehensive list of the documents to be voided. Other documents listed under 483-3D, but not shown on the above list, cannot be voided. Please advise when these documents have been voided. Please call me at 803-952-6533 or email me if you have any questions.
