Ms. Susan B. Fulmer, P.G., Manager
Federal Remediation Section
Division of Site Assessment, Remediation and Revitalization
Bureau of Land and Waste Management
South Carolina Department of Health and Environmental Control
2600 Bull Street
Columbia, South Carolina 29201

Mr. Jon Richards
Acting Savannah River Site Remedial Project Manager
Superfund Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Sampling and Analysis Plan for the M-Area Inactive Process Sewer Lines (MIPSL) (081-M) Operable Unit (OU) (U) (SRNS-RP-2018-01053, Revision 1 (Corrected), July 2019) SEMS Number: 19

The U.S. Department of Energy (DOE) is submitting the subject information for your files. The South Carolina Department of Health and Environmental Control (SCDHEC) and U.S. Environmental Protection Agency (EPA) approved the Revision 1 report on August 15, 2019 and October 9, 2019, respectively. The corrected version incorporates additional text in Section 3.1 MIPSL OU Potential Contamination (refer to the 2nd paragraph on page 5) as requested by EPA to clarify that Savannah River Site is not currently proposing to change the remedial goal (RG) values defined in the Record of Decision (ROD). After the soil sampling is complete, the analytical results will be compared to the RG values stated in the ROD. If the sample results exceed the RG values, a contaminant migration model will be completed, a report prepared, and a Core Team meeting to discuss the results will be proposed. Any future recommendations to revise the RG values based on the contaminant migration model results will be discussed with and agreed to by the Core Team. The effort and time that the SCDHEC and the EPA have provided on this operable unit are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-8365, or the DOE Federal Project Director, Karen Adams, at (803) 952-7871.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brian T. Hennessey".

Brian T. Hennessey
SRS Remedial Project Manager
Infrastructure and Area Completion Division

Ms. Susan Fulmer
Mr. Jon Richards
