Dear Mr. Hennessey:

The U.S. Environmental Protection Agency (EPA) has reviewed DOE-SRS Responses to EPA Comments on the Effectiveness Monitoring Report for the Monitored Natural Attenuation at the Chemicals, Metals, and Pesticides Pits Operable Unit, March 2017 through March 2018, Revision 0 dated June 2018.

EPA provides approval for the above mentioned response to EPA comments and the above mentioned report. As outlined in the comment responses, EPA looks forward to a core team meeting sometime in August 2019 to discuss several issues outlined in this letter and would like to wait until the core team meeting before any sampling stations are deleted. If you have any questions, please contact me at (404) 229 -9500.

Sincerely,

A handwritten signature in black ink, appearing to read "Diedre Lloyd".
