Re: Request for Concurrence to Proceed to Sample and Analysis Phase of the Tank Closure Process for Tank 10, SEMS Number: 89, dated May 9, 2024 and received May 13, 2024.

Dear Ms. Hammett:

In accordance with the procedures outlined in the Federal Facility Agreement (FFA), this letter serves to inform you that South Carolina Department of Health and Environmental Control (the Department) concurs that DOE may enter the sampling and analysis phase of the closure process for Tank 10. This decision is based upon the information presented to the Department on May 2, 2024, in a meeting held for the purpose of informing SCDHEC and EPA of completion of preliminary cease waste efforts (PCWR) for Tank 10. The Department acknowledges that completion of PCWR efforts in this tank will satisfy the 12/31/2024 commitment for PCWR listed in Attachment B of Appendix L of the FFA and as modified in the *2022 High Level Waste Tank Milestones Agreement*.

If you should need any further assistance on this matter, please contact me at (803) 898-4331.

Sincerely,

Susan B. Fulmer Digitally signed by Susan B. Fulmer
