AREA COMPLETION PROJECTS

Dear Mr. Hennessey:

The U.S. Environmental Protection Agency (EPA) has reviewed the Department of Energy, Savannah River (DOE-SRS) Site's Facility Decommissioning Evaluation (FDE) for the D-Area Coal Handling Houses and Associated Facilities, August 24, 2021 along with the associated Baseline Asbestos Inspection Reports noted below.

- Building SRS PB EX0035
- Building 484-22D
- Building 484-24D
- Building 484-21D
- Building SRS PB EX0033
- Building 484-23D

EPA conditionally approves the above mentioned reports with the understanding that DOE-SRS will include information requested below in the FDE for D-Area Coal Handling Houses and Associated Facilities.

1. Please explain why Conveyor No. 3 is targeted for partial decommissioning whereas the other conveyors have been entirely decommissioned.
2. Please include approximate dates and specific Asbestos removal/disposal regulations that will be followed during proposed activities (reference/notation is sufficient).

Should you have any questions or concerns, please feel free to call me at on my cell number 404-229-9500.

Sincerely,

*Diedre Lloyd*
