Dear Mr. Hennessey:

The Department has completed its review of the above reference document pursuant to the Savannah River Federal Facility Agreement (FFA). Based on this review, the following comment was generated. Due to the nature of this comment, the Department is confident that the necessary changes can be made to the final clean copy version with resolution. Therefore, the above referenced Revision 0 is conditionally approved providing the following comment is addressed and incorporated:

1. As per the Department's approval letter on the Extension Request for Completion of Bulk Waste Removal Efforts (BWRE) for One Tank by 8/31/18 (dated August 2, 2018), please delete the 8/31/2018 BWRE milestone for Tank 10H from the FY2018 Appendix D and revise the FFA appendices accordingly with the new dates associated with the extension request - restart BWRE activities (i.e. water addition) in Tank 10H by January 31, 2019 and complete BWRE for Tank 10H by November 30, 2019.

If you have any questions, please contact me at (803) 898-4331.

Sincerely,

A handwritten signature in blue ink that reads "Susan B. Fulmer".
