Ms. Susan B. Fulmer, P. G., Manager  
Federal Remediation Section  
Division of Site Assessment, Remediation and Revitalization  
Bureau of Land and Waste Management  
South Carolina Department of Health and Environmental Control  
2600 Bull Street  
Columbia, South Carolina 29201

Dear Ms. Fulmer:

**SUBMITTAL OF SAVANNAH RIVER SITE INVESTIGATION-DERIVED WASTE MANAGEMENT PLAN, APPENDICES A, B, AND C (WSRC-RP-94-1227, REDLINE REVISION 9F, DECEMBER 2018)**

The Savannah River Site (SRS) has performed a review of the values listed in Appendices A and B of the approved SRS Investigation-Derived Waste (IDW) Management Plan (WSRC-RP-94-1227, Revision 9, October 2007). Based on this review, the values of the health-based limits (HBLs) for chemicals have been updated. The chemical HBLs were updated to reflect the values found in the November 2018 Environmental Protection Agency's (EPA) Regional Screening Levels. The HBLs for radionuclides reflect the EPA's Preliminary Remediation Goals for Radionuclides, May 2018. These changes were only made to Appendix A - Aqueous IDW and Appendix B - Non-Aqueous IDW. Appendix C - Summary of Changes is included to provide you with a list of the revisions to Appendices A and B. SRS plans to develop a clean copy of the appendices and implement the updated HBLs upon regulatory approval.

Please review the enclosed appendices and provide your comments or approval within thirty (30) days of receipt. If you have any questions or comments regarding this submittal, please contact Ms. Shelia McFalls at (803) 952-6819, or via email at [shelia.mcfalls@srs.gov](mailto:shelia.mcfalls@srs.gov).

Sincerely,

Amy J. Meyer, Manager  
Environmental Compliance  
Environmental Compliance & Area Completion Projects
