Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Fiscal Year (FY) 2026 Budget Allotment for Environmental Compliance & Area Completion Projects and Federal Facility Agreement Revision 0 Appendix D for FY2026 (Print Date: 09/30/2026)

In accordance with the terms of Section XX.B of the Federal Facility Agreement (FFA) for the Savannah River Site (SRS), the U.S. Department of Energy (DOE) is providing official notification that the Savannah River Operations Office has received its Fiscal Year (FY) 2026 Budget Advice of Allotment and accompanying Approved Funding Program authorizing the FY2026 Environmental Compliance & Area Completion Projects budget.

This submittal also includes the FFA Revision 0 Appendix D for FY2026 (Print Date: 09/30/2026) for your review as required by FFA Section XX.B. The Revision 0 Appendix D for FY2026 was revised from the approved FFA Revision 0 Appendix E: Fiscal Year 2025 Long-Term Projections, Appendix E.1: Deliverable Commitment Dates and Milestones Commitment Dates for FY2026 (Print Date: 10/24/2024, Updated 05/07/2025) as stated below.

1. DOE submitted the *Extension Request for Federal Facility Agreement Milestones Due for Submittal November 14, 2025, to February 28, 2026* (RDDD-26-104, dated November 4, 2025). The South Carolina Department of Environmental Services (SCDES) and U.S. Environmental Protection Agency (EPA) approved the extension request in their letters dated November 4, 2025 (SRNS-OS-2025-00367) and November 5, 2025 (SRNS-OS-2025-00368), respectively. This revised the submittal date for the list of deliverables shown in Table 1.

2. The D-Area Groundwater Operable Unit (D-Area Upgradient Sources) (NBN) Revision 0 Resource Conservation and Recovery Act Facility Investigation/Remedial Investigation (RFI/RI) Second Work Plan Addendum Submittal was added when the document was submitted for regulatory review on January 28, 2026.

3. DOE submitted the *Extension Request for the Submittal of the Revision 0 Resource Conservation and Recovery Act Facility Investigation/Remedial Investigation Report with Baseline Risk Assessment for the D-Area Groundwater Operable Unit and Subsequent Milestones and Revision 0 D-Area Groundwater Treatability Study Data Report, SEMS Number: 63* (RDDD-26-117, dated January 15, 2026). SCDES and EPA approved the extension request in their letters dated January 20, 2026 (SRNS-OS-2026-00026) and January 26, 2026 (SRNS-OS-2026-00028), respectively. Therefore, the submittal date of the Treatability Study Data Report was revised from April 30, 2026, to May 31, 2026.

4. DOE submitted the *Extension Request for the Early Action Statement of Basis/Proposed Plan (EA SB/PP) for the Beneficial Use of Select Coal Ash and Coal Fines at the A-Area Ash Pile (788-A), A-Area Coal Pile Runoff Basin (788-3A), F-Area Ash Landfill (288-F), H-Area Ash Basin (288-H), K-Area Ash Basin (188-K), and L-Area Ash Basin (188-L) Operable Units (U) (SRNS-RP 2025-01221, Revision I) (Redline), EA SB/PP Supporting Documentation, and Subsequent Milestones, SEMS Numbers: 61, 62, 88, 90, & 91* (RDDD-26-142, dated April 30, 2026). EPA and SCDES approved the extension request in their letters dated May 1, 2026 (SRNS-OS-2026-00180 and SRNS-OS-2026-00181, respectively). Therefore, the submittal date of the Revision 0 Early Action Record of Decision (ROD) was revised from June 11, 2026, to August 11, 2026.

5. DOE submitted the *Extension Request for the Statement of Basis/Proposed Plan (SB/PP) for D-Area Ash Basin Wetlands (NBN) in Support of Savannah River and Floodplain Swamp Integrator Operable Unit (U) (SRNS-RP-2025-01449, Revision 1) (Redline), SB/PP Supporting Documentation, and Subsequent Milestones, SEMS Number: 69* (RDDD-26-143, dated April 30, 2026). EPA and SCDES approved the extension request in their letters dated May 5, 2026 (SRNS-OS-2026-00185 and SRNS-OS-2026-00187, respectively). Therefore, the submittal date of the Revision 0 ROD was revised from July 13, 2026, to September 18, 2026.

6. The submittal of the Early Construction and Operational Disposal Site L-3 (East of L Area) (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit Revision 0 Corrective Measures Implementation Plan/Remedial Action Implementation Plan Submittal on July 22, 2026 was removed from the appendix. The selected remedies at the operable unit consist of land use controls and no action, and a design document is not required. The Revision 0 Land Use Control Implementation Plan Submittal on July 22, 2026 remains as a deliverable.

7. The M-Area Operable Unit Revision 0 Land Use Control Implementation Plan Addendum Submittal was added when the document was submitted for regulatory review on September 30, 2026.

8. Footnote 3 was revised to include a sentence to discuss the change from “Beneficial Reuse” to “Beneficial Use”.

As of the date of this letter, all FY2026 milestones have been met on or ahead of schedule.

Please review the enclosures and provide your comments or approval within fifteen (15) days of receipt. The effort and time that the SCDES and EPA have given on the subject appendix are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-6211.

Sincerely,

MATTHEW BAKER

Table 1. Extension Requests for November 2025 through February 2026 Deliverables

Deliverable	Original Due Date	New Due Date
FFA Appendix E, Long-Term Projections for FY2026 (Revision 0)	November 15, 2025	February 13, 2026
FFA Annual Progress Report for FY2025 (including Annual Certification for Land Use Controls)	December 1, 2025	March 1, 2026
Statement of Basis/Proposed Plan for the D-Area Ash Basin Wetlands (NBN) in Support of Savannah River and Floodplain Swamp Integrator Operable Unit (Revision 0)	December 2, 2025	March 2, 2026
Seventh Five-Year Remedy Review Report for Savannah River Site Operable Units with Engineered Cover Systems (Revision 0)	December 18, 2025	March 18, 2026
Removal Actions Performed in FY 2025	January 1, 2026	April 1, 2026
Record of Decision Remedial Alternative Selection for the Early Construction and Operational Disposal Site L-3 (NBN), L-Area Rubble Pit (131-1L), and L-Area Rubble Pit (131-4L) Operable Unit (Revision 0)	January 5, 2026	April 5, 2026
Issue Seventh Five-Year Remedy Review Report for Savannah River Site Operable Units with Groundwater Remedies	February 2, 2026	May 3, 2026

Deliverable or Milestone:	Milestone/ Submittal Date (MM/DD/YYYY)
Revision 0 Appendix C, RCRA/CERCLA Unit List, Appendix G, Site Evaluation Areas, and Appendix K, D&D Facilities for Fiscal Year 2026 Submittal SRS Unit Index Number(s): N/A SEMS Number(s): N/A	10/01/2025
Revision 0 Appendix H, RCRA Regulated Units for Fiscal Year 2026 Submittal SRS Unit Index Number(s): N/A SEMS Number(s): N/A	10/01/2025
A-Area Ash Pile (788-A) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 236 SEMS Number(s): 62	11/03/2025
A-Area Coal Pile Runoff Basin (788-3A) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 47 SEMS Number(s): 62	11/03/2025

Savannah River Site (SRS) Unit Index Number is a unique identifier assigned to each individual RCRA/CERCLA Unit. This number is used by SRS for tracking and is not meant to imply a ranking or priority.

CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act
D&D: Deactivation & Decommissioning
NBN: No Building Number
RCRA: Resource Conservation and Recovery Act
SEMS: The U. S. Environmental Protection Agency's (EPA's) Superfund Enterprise Management System database.

[1] This facility was addressed per Facility Decommissioning Evaluation (FDE) protocols; however, the post-decommissioning facility remnants (including the building slab) will be closed under the FFA as part of this operable unit.

[2] This report will be submitted until such time as post-remedial action reporting for the D-Area Groundwater Operable Unit resumes.

[3] Beneficial Use Coal and Coal Ash Units as described in the Preferred Remedial Action and Regulatory Strategy for Remaining Savannah River Site's Coal Ash and Coal Fines Operable Units (U) (IACD-22-166, dated July 21, 2022). These units have been combined from a remedial decision perspective and will be addressed through one set of FFA documentation as an early action. To conform with 40 Code of Federal Regulation 237.53, "Beneficial Reuse" was revised to "Beneficial Use" (refer to RDDD-26-1353, dated April 9, 2026) after submittal of the Revision 0 Early Action Statement of Basis/Proposed Plan.

Deliverable or Milestone:	Milestone/ Submittal Date (MM/DD/YYYY)
F-Area Ash Landfill (288-F) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 276 SEMS Number(s): 88	11/03/2025
H-Area Ash Basin (288-H) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 292 SEMS Number(s): 61	11/03/2025
K-Area Ash Basin (188-K) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 300 SEMS Number(s): 90	11/03/2025
L-Area Ash Basin (188-L) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Statement of Basis/Proposed Plan Submittal[3] SRS Unit Index Number(s): 148 SEMS Number(s): 91	11/03/2025

Savannah River Site (SRS) Unit Index Number is a unique identifier assigned to each individual RCRA/CERCLA Unit. This number is used by SRS for tracking and is not meant to imply a ranking or priority.

CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act

These units have been combined from a remedial decision perspective and will be addressed through one set of FFA documentation as an early action. To conform with 40 Code of Federal Regulation 237.53, "Beneficial Reuse" was revised to "Beneficial Use" (refer to RDDD-26-1353, dated April 9, 2026) after submittal of the Revision 0 Early Action Statement of Basis/Proposed Plan.

Deliverable or Milestone:	Milestone/ Submittal Date (MM/DD/YYYY)
K-Area Ash Basin (188-K) in Support of Beneficial Use of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Record of Decision Remedial Alternative Selection Submittal[3] SRS Unit Index Number(s): 300 SEMS Number(s): 90	08/11/2026
L-Area Ash Basin (188-L) in Support of Beneficial Use of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Early Action Record of Decision Remedial Alternative Submittal[3] SRS Unit Index Number(s): 148 SEMS Number(s): 91	08/11/2026
L-Area Southern Groundwater (NBN) Operable Unit Effectiveness Monitoring Report Submittal [Reference: SRNS-RP-2012-00857; after 2012, sampling results will be presented in 4-year effectiveness monitoring reports (EMRs) (e.g., 2012, 2016, 2020, etc.) with a 2-year data summary in letter format (e.g., 2014, 2018, 2022, etc.) in between the 4-year EMRs until the maximum contaminant levels have been attained for the L-Area Southern Groundwater monitored natural attenuation remedy. The L-Area Oil and Chemical Basin and L-Area Reactor Seepage Basin monitoring results will reported in the EMR or data summary following each 5-year sampling event.] SRS Unit Index Number(s): 487 SEMS Number(s): 77	08/31/2026
R-Area Groundwater (NBN) and R-Area Reactor Seepage Basins (904-57G, -58G, -59G, -60G, -103G, and -104G)/108-4R Overflow Basin (108-4R) Operable Units Combined Groundwater Monitoring Reports (Reference: RDDD-24-141 & RDDD-25-116, Reporting for the R-Area Groundwater Operable Unit (OU) and R-Area Reactor Seepage Basins/108-4R Overflow Basin OU will be combined into one report with biennial reporting starting in 2026. A letter report will be submitted in 2026 with a full report in 2028; subsequent report submittals will alternate between letter and full reports in even numbered years until the Core Team decides on a different reporting schedule.) SRS Unit Index Number(s): 288 121 122 123 124 119 120 42 SEMS Number(s): 95 25	08/31/2026

Savannah River Site (SRS) Unit Index Number is a unique identifier assigned to each individual RCRA/CERCLA Unit. This number is used by SRS for tracking and is not meant to imply a ranking or priority.

CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act
D&D: Deactivation & Decommissioning
NBN: No Building Number
RCRA: Resource Conservation and Recovery Act
SEMS: The U. S. Environmental Protection Agency's (EPA's) Superfund Enterprise Management System database.

[1] This facility was addressed per Facility Decommissioning Evaluation (FDE) protocols; however, the post-decommissioning facility remnants (including the building slab) will be closed under the FFA as part of this operable unit.

[2] This report will be submitted until such time as post-remedial action reporting for the D-Area Groundwater Operable Unit resumes.

[3] Beneficial Use Coal and Coal Ash Units as described in the Preferred Remedial Action and Regulatory Strategy for Remaining Savannah River Site's Coal Ash and Coal Fines Operable Units (U) (IACD-22-166, dated July 21, 2022). These units have been combined from a remedial decision perspective and will be addressed through one set of FFA documentation as an early action. To conform with 40 Code of Federal Regulation 237.53, "Beneficial Reuse" was revised to "Beneficial Use" (refer to RDDD-26-1353, dated April 9, 2026) after submittal of the Revision 0 Early Action Statement of Basis/Proposed Plan.
