Mr. Jon Richards
Savannah River Site Remedial Project Manager
Superfund and Emergency Management Division
U. S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, Georgia 30303

Dear Ms. Fulmer and Mr. Richards:

SUBJECT: Fiscal Year (FY) 2025 Budget Allotment for Environmental Compliance & Area Completion Projects and Federal Facility Agreement Revision 0 Appendix D for FY2025 (Print Date: 09/09/2025)

In accordance with the terms of Section XX.B of the Federal Facility Agreement (FFA) for the Savannah River Site (SRS), the U.S. Department of Energy (DOE) is providing official notification that the Savannah River Operations Office has received its Fiscal Year (FY) 2025 Budget Advice of Allotment and accompanying Approved Funding Program authorizing the FY2025 Environmental Compliance & Area Completion Projects budget.

This submittal also includes the FFA Revision 0 Appendix D for FY2025 (Print Date: 09/08/2025) for your review as required by FFA Section XX.B. The Revision 0 Appendix D for FY2025 was revised from the approved FFA Revision 0 Appendix E: Fiscal Year 2024 Long-Term Projections, Appendix E.1: Deliverable Commitment Dates and Milestones Commitment Dates for FY2025 (Print Date: 10/27/2023, Updated 03/26/2024) as stated below.

1. Due to the impacts of Hurricane Helene in October 2024, the due date for the submittal of the Revision 0 Focused Early Action Corrective Measures Study/Feasibility Study in Support of Beneficial Reuse of Select Coal Ash and Coal Fines at the A-Area Ash Pile (788-A), A-Area Coal Pile Runoff Basin (788-3A), F-Area Ash Landfill (288-F), H-Area Ash Basin (288-H), K-Area Ash Basin (188-K), and L-Area Ash Basin (188-L) Operable Units (OU) was extended from 10/02/2024 to 10/07/2024 as documented in the SRS correspondence that was submitted on 10/02/2024 (SRNS-J2000-2024-00766 [ARF-024717]). The U. S. Environmental Protection Agency (EPA) and South Carolina Department of Environmental Services (SCDES) approved the extension request on 10/02/2024 (SRNS-OS-2024-00440 [ARF-024718] and SRNS-OS-2024-00441 [ARF-024719]), respectively.

Ms. Susan Fulmer
Mr. Jon Richards

2

OCT 22 2025

2. To comply with DOE-Headquarters direction and Presidential Executive Orders, the due date for the Revision 0 New or Replacement Waste Tank System Components Annual Report (i.e., Status of F/H Area Radioactive Liquid Waste Tanks Being Removed from Service Calendar Year 2024 Annual Report) was revised from 03/09/2025 to 05/08/2025 as documented in the DOE-Savannah River Operations Office (SROO) letter dated 02/11/2025 (RDDD-25-126 [ARF-024885]). EPA and SCDES approved the extension request on 02/12/2025 (SRNS-OS-2025-00044 [ARF-024886]) and 02/13/2025 (SRNS-OS-2025-00049 [ARF-024890]), respectively.
3. DOE-SROO submitted a revised implementation schedule for the Automotive Repair Shop OU as part of the FFA Revision 0 Appendix E, Long-Term Projections for FY2025 submittal (RDDD-25-104, dated 11/13/2024 [ARF-024767]). The implementation schedule combined the Revision 0 Remedial Investigation (RI) Report with Baseline Risk Assessment (BRA) (due 03/11/2025) with the Revision 0 Feasibility Study (FS) (due 11/25/2025) into a Revision 0 RI/BRA Report with FS with a due date of 09/30/2025. Based on the editorial nature of a SCDES' comment, the Revision 0 Appendix E for FY2025 was updated and submitted for regulatory review and approval on 03/11/2025 (RDDD-25-122 [ARF-024903]). SCDES and EPA approved the updated Revision 0 Appendix E on 03/17/2025 (SRNS-OS-2025-00069 [ARF-024918]) and 04/02/2025 (SRNS-OS-2025-00096 [ARF-024940]), respectively.

During the 06/11/2025, Post-Work Plan Characterization Scoping Meeting, DOE, EPA, and SCDES agreed that there are no problems warranting action for the Automotive Repair Shop OU and that SRS should submit a Revision 0 RI Report with BRA on 09/30/2025, in lieu of the Revision 0 RI/BRA Report with FS.

4. The due date for the Revision 0 D-Area Groundwater (no building number [NBN]) OU Treatability Study Data Report was extended from 04/30/2025 to 05/30/2025 as documented in the DOE-SROO letter dated 04/09/2025 (RDDD-25-132 [ARF-024947]). SCDES and EPA approved the extension request on 04/11/2025 (SRNS-OS-2025-00108 [ARF-04956]) and 04/23/2025 (SRNS-OS-2025-00117 [ARF-024958]), respectively.
5. The remedial action selected for the M-Area Inactive Process Sewer Lines (081-M) OU was soil vapor extraction (SVE) enhanced with soil fracturing and land use controls (LUCs). The results from soil samples collected in 2019 showed that the cleanup levels for soil were achieved, and the SVE system was shut down in July 2020. The SVE wells were abandoned in 2021. SRS developed and submitted the Revision 0 Corrective Measures Implementation Report/Remedial Action Completion Report for M-Area Inactive Process Sewer Lines (081-M) OU to document the completion of the SVE operations and the abandonment of the SVE wells. LUCs remain in effect at the OU. The report was submitted to SCDES and EPA for review on 06/20/2025. The report was not initially included in the list of FY2025 milestones. It was added to the Revision 0 Appendix D for FY2025 for completeness.

Ms. Susan Fulmer
Mr. Jon Richards

3

OCT 22 2025

6. The R-Area Groundwater (RAGW) OU (NBN) Effectiveness Monitoring Report in Support of R Area OU previously had a submittal date of 08/31/2025. On 01/16/2025 (RDDD-25-116 [ARF-024860]), DOE-SROO recommended that the R-Area Reactor Seepage Basins/108-4R Overflow Basin OU and RAGW OU groundwater reports be combined into one report, with a letter report due in August 2026 and a full report due in August 2028, with subsequent reporting alternating between letter and full reports every 2 years until such time a new reporting schedule is determined. The EPA and SCDES approved the request on 02/13/2025 (SRNS-OS-2025-00047 [ARF-024888]), and 02/14/2025 (SRNS-OS-2025-00052 [ARF-024892]), respectively. Therefore, the submittal of the RAGW OU report on 08/31/2025 is no longer required and is not included in the Revision 0 Appendix D for FY2025 submittal.

As of the date of this letter, all FY2025 milestones have been met on or ahead of schedule.

Please review the enclosures and provide your comments or approval within fifteen (15) days of receipt. The effort and time that the SCDES and EPA have given on the subject appendix are greatly appreciated.

Questions from you or your staff may be directed to me at (803) 952-6211.

Sincerely,

**KAREN
MORROW**

Revision 0 Appendix D for Fiscal Year 2025

Deliverable or Milestone:	Milestone/ Submittal Date (MM/DD/YYYY)
Revision 0 Appendix C, RCRA/CERCLA Unit List, Appendix G, Site Evaluation Areas, and Appendix K, D&D Facilities for Fiscal Year 2025 Submittal SRS Unit Index Number(s): N/A SEMS Number(s): N/A	10/01/2024
Revision 0 Appendix H, RCRA Regulated Units for Fiscal Year 2025 Submittal SRS Unit Index Number(s): N/A SEMS Number(s): N/A	10/01/2024
A-Area Ash Pile (788-A) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Focused Early Action Corrective Measures Study / Feasibility Study Submittal ³ SRS Unit Index Number(s): 236 SEMS Number(s): 62	10/07/2024
A-Area Coal Pile Runoff Basin (788-3A) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Focused Early Action Corrective Measures Study / Feasibility Study Submittal ³ SRS Unit Index Number(s): 47 SEMS Number(s): 62	10/07/2024

Savannah River Site (SRS) Unit Index Number is a unique identifier assigned to each individual RCRA/CERCLA Unit. This number is used by SRS for tracking and is not meant to imply a ranking or priority.

CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act

D&D: Deactivation and Decommissioning

NBN: No Building Number

RCRA: Resource Conservation and Recovery Act

SEMS: The U. S. Environmental Protection Agency's (EPA's) Superfund Enterprise Management System database.

¹ This facility was addressed per Facility Decommissioning Evaluation (FDE) protocols; however, the post-decommissioning facility remnants (including the building slab) will be closed under the FFA as part of this operable unit.

² This report will be submitted until such time as post-remedial action reporting for the D-Area Groundwater Operable Unit resumes.

³ Beneficial Reuse Coal and Coal Ash Units as described and discussed in the *Preferred Remedial Action and Regulatory Strategy for Remaining Savannah River Site's Coal Ash and Coal Fines Operable Units (U)* (IACD-22-166, dated July 21, 2022). These units have been combined from a remedial decision perspective and will be addressed through one set of FFA documentation as an early action.

⁴ The *Periodic Report on the Bioassessment of Savannah River Site Streams* addresses all integrator operable units (IOUs) until the Phase III Field Start for each individual IOU. As applicable, the report will reflect the SRS Index Numbers and SEMS Numbers for the IOUs discussed in the report. The Lower Three Runs IOU is not included in the report because the Phase III Field Start has been achieved.

Revision 0 Appendix D for Fiscal Year 2025

Deliverable or Milestone:	Milestone/ Submittal Date (MM/DD/YYYY)
F-Area Ash Landfill (288-F) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Focused Early Action Corrective Measures Study / Feasibility Study Submittal ³	10/07/2024
SRS Unit Index Number(s): 276	SEMS Number(s): 88
H-Area Ash Basin (288-H) in Support of Beneficial Reuse of Select Coal Ash and Coal Fines Operable Units at the Savannah River Site Revision 0 Revision 0 Focused Early Action Corrective Measures Study / Feasibility Study Submittal ³	10/07/2024
SRS Unit Index Number(s): 292	SEMS Number(s): 61
